

Memorandum

Date: August 28, 1998

To: CALFED Agencies, BDAC Ecosystem Work Group and Invited Parties

From: Dick Daniel

Subject: Ecosystem Restoration Program Draft Documents

Attached for your review are two important Ecosystem Restoration Program draft documents.

The first document is a draft of Indicators of Ecosystem Health. It is a description of landscape and ecosystem indicators we propose to use to measure progress at the broadest level. Additional indicators will be proposed at the management level and for public reporting on our progress. Although we consider it to be well prepared and complete, the team that put together the indicators' document wanted the following disclaimer in this cover letter: **"This document represents an interior product that has not been subjected to final review by all participatory members."**

Please review the draft indicators document and provide us with your comments by 5:00 p.m., September 30, 1998.

The second attached document is a working draft of our Ecosystem Restoration Strategic Plan. It is a work in progress and represents the best thinking of our Core Team to this point. Our schedule dictates that we have your comments by 5:00 p.m., September 30, 1998.

Both documents will be discussed at the September 8, 1998, BDAC Ecosystem Restoration Work Group meeting. A detailed discussion of the documents will occur at an early October Work Group meeting.

Once again, we appreciate your help and acceptance our difficult schedule.
